

Sue asked her friends what their favourite animal was and then made a pictogram to show her results.

Favourite Animals

1 icon = 1 person's favourite animal

1. What was the most popular animal?
2. How many people chose lions?
3. Which of the animals were chosen by exactly 3 people?
4. How many people did NOT choose dogs or horses?
5. What is the difference between the number of people who chose lions and the number of people who chose giraffes?
6. How many people did Sue ask altogether?
7. Which animals were chosen by more than 6 people?
8. True or False?
More than twice as many people chose dogs than giraffes.
